

Instrument Rating Training Endorsement

This course is designed to give you the knowledge, skills and teaching capability to start conducting flight training for the issue of an Instrument Rating.

The course consists of briefings to cover the syllabus requirements including NDB, VOR, DME, GNSS, DGA, RNAV and ILS (as required) as well as associated theory, navigation and planning. You will also be trained in the use of a flight simulator and conduct flights in a single engine aircraft under the IFR.

Syllabus Includes

- 12 hours ground briefings
- All PowerPoint slides for IFR training and flight sequences
- 6.5 hours PA28 or C182 - G1000
- 4 hours simulator training
- C172S-G1000 Flight Test (2.0 hours)
- Flight Examiner fees

Training and Experience Requirements

- Commercial Pilot Licence (CPL) or Air Transport Pilot Licence (ATPL)
- Current Australian Instructor Rating
- Current Australian Instrument Rating with at least 1 renewal

Course Cost:

\$7800

Price as of June 2022.
